

The following article is a brief ... outlining the history and focus of the LPB group in promoting our sport to our school students.

Let's Play Bowls (LPB) was founded in 2014 consisting of a group of lawn bowlers dedicated to promoting bowls to school students - through competition.

The committee consists of Chairman: Peter Moore (retired Hunter Education Region Sport's Coordinator - 35yrs) Administrator: Warren Boyd (retired Primary Principal - 25yrs) Bowlers and Parent representatives.

In 2015 the first LPB High School 'inter-school' competition was established in the Hunter and has been supported by the host club New Lambton BC - for the past 10 years.

In 2017 a primary school parallel pathway was planned.

The first 'inter-school' 'trials' in 2018 and 2019 exceeded all expectations. It was clear that primary bowls was a future direction for the sport.

LPB again trialed primary bowls in country N.S.W. - Dubbo - December 2022 ... attracting over sixty Y5 & Y6 students (22 x teams.)

These trials led to the launch of the inaugural Primary 'School Bowls' 2025, establishing a nationwide pathway for all senior students attending our; Government, Independent and Catholic Schools.

Let's Play Bowls plays an important role in understanding how school sport works and can relate to the organisational needs and requirements of our teachers and students.

The committee is keen to continue promoting our game to all schools. However, this is a huge undertaking but definitely worth the commitment as Year 5 and Year 6 students are just waiting for an invitation to play a sport; that is; all inclusive, a sport steeped in history and a non-contact sport where **'everyone can play.'**
